

Warmley Nature Action Zone
Investing in Community, Climate and Nature

Project goal:
 To increase the abundance of native and pollinator flowers and plants in the Warmley area.

How?
 We will work with nature, through observation, survey and testing to select the right species for each habitat. We will then select the best way of establishing and maintaining those plants in a sustainable manner. Our intention is that the plants naturalise and spread through the open spaces, thriving in perpetuity and to the benefit of local wildlife and people.

The Site

Key to new plants

- Woodland flowers & plants 1100sqm
- Hedgerow flowers 1.25km
- Low flowering lawn 3000sqm
- Pollinator flowers along fences 100m
- Naturalising bulbs 300sqm
- Fruit tree 5No
